CPOA is proud to present a seminar entitled: "Records Release Mandates: Law Enforcement's New Normal" in which multiple viewpoints with potential solutions and responses to your concerns regarding the bills which gave us these new laws (AB748, SB1421, and SB978). There will also be a focus on AB392, Assembly Member Shirley Weber's 2019 use of force legislation that raises the application standard to "necessary" and poses as one of the most significant threats to public safety in our lifetime.

With the passage of several public records reform legislation in 2018, law enforcement agencies must change the way they respond to requests for incident and personnel records. The new California Public Records Act expansion is creating a deep, dark hole in the Pitchess protections: with a complex array of new disclosure requirements and limited restrictions that can be baffling to even the most experienced hands. Do you have the tools to understand these NEW LAWS and the guidance to navigate the impact on you, your department, and law enforcement in California moving forward?

Seating is limited, make your reservation now! This is a seminar unlike any you have seen before.
